STATISTICAL SUMMARY OF EMPLOYMENT

FEBRUARY 1953

Prepared by:
Office of Personnel
Division of Employment
March 16, 1953

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: "PMA County Committeemen and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc.). The number of those persons will be reported annually, as soon as possible after June 30 of each year.

Full-time employment of the Department of Agriculture numbered 55,381 on February 28, 1953, as compared with 55,465 on January 31, 1953. Part-time and intermittent employment totaled 11,467 as compared with 11,333 on January 31, 1953.

Total paid employment on February 28, 1953, was 66,848, an increase of 50 since January 31, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The decrease in employment in the Forest Service and Federal Crop Insurance Corporation was due to curtailment of seasonal activities in the field.

There were more Committeemen performing service during February which accounts for the increase in part-time and intermittent employment in the Farmers Home Administration.

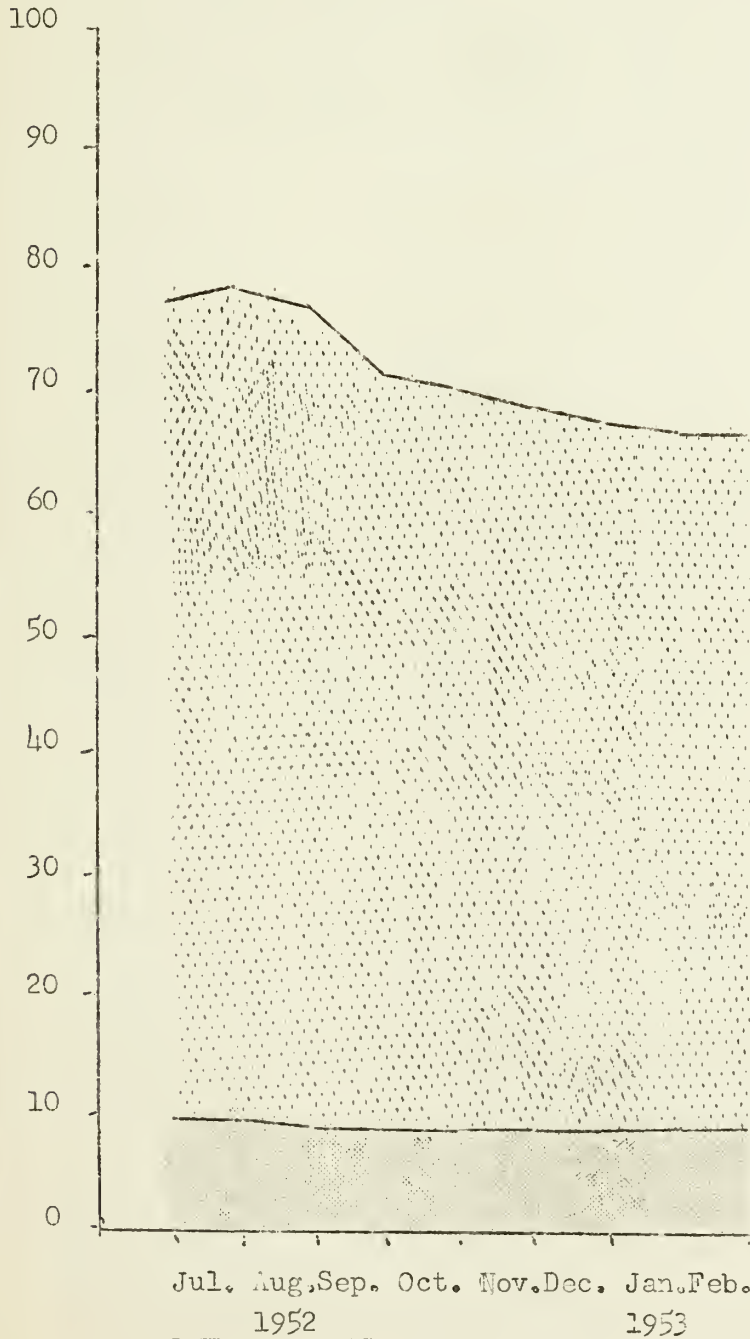

TURNOVER:

The separations from the Department for February 1953 of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 968 or 1.8 percent, a decrease of 0.5 percent since January 31, 1953. There were 110 separations, or 1.1 percent, in the Washington, D. C. area, a decrease of 0.1 percent since January 31, 1953. Outside the Washington, D. C. Area, there were 858 separations, or 1.9 percent, a decrease of 0.6 percent since January 31, 1953.

The greatest percentage of separations falls in the terminations group, which consists of separation of temporary employees, termination of excepted appointments.

4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

Full-time employment of the Department of Agriculture numbered 56,412 on April 30, 1953, as compared with 55,294 on March 31, 1953. Part-time and intermittent employment totaled 13,541 as compared with 12,660 on March 31, 1953.

Total paid employment on April 30, 1953, was 69,953, an increase of 1,999 since March 31, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in employment in the Federal Crop Insurance Corporation, Soil Conservation Service and Forest Service was due to increased seasonal activities in the field.

There were less Committeemen performing service during April which accounts for the decrease in part-time and intermittent employment in the Farmers Home Administration.

TURNOVER:

The separations from the Department for April 1953 of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 1,193, or 2.2 percent, a decrease of 0.2 percent since March 1953. There were 124 separations, or 1.3 percent, in the Washington, D. C. Area, no change since March 31, 1953. Outside the Washington, D. C. Area, there were 1,069 separations, or 2.4 percent, a decrease of 0.3 percent since March 31, 1953.

The greatest percentage of separations falls in the resignations group, which consists of resignations or separations by abandonment of position.

3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

Full-time employment of the Department of Agriculture numbered 58,036 on May 31, 1953, as compared with 56,412 on April 30, 1953. Part-time and intermittent employment totaled 13,589 as compared with 13,541 on April 30, 1953.

Total paid employment on May 31, 1953, was 71,625, an increase of 1,672 since April 30, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in employment in Entomology and Plant Quarantine and the Forest Service was due to increased seasonal activities in the field. The decrease in employment in the Federal Crop Insurance Corporation was due to curtailment of seasonal activities.

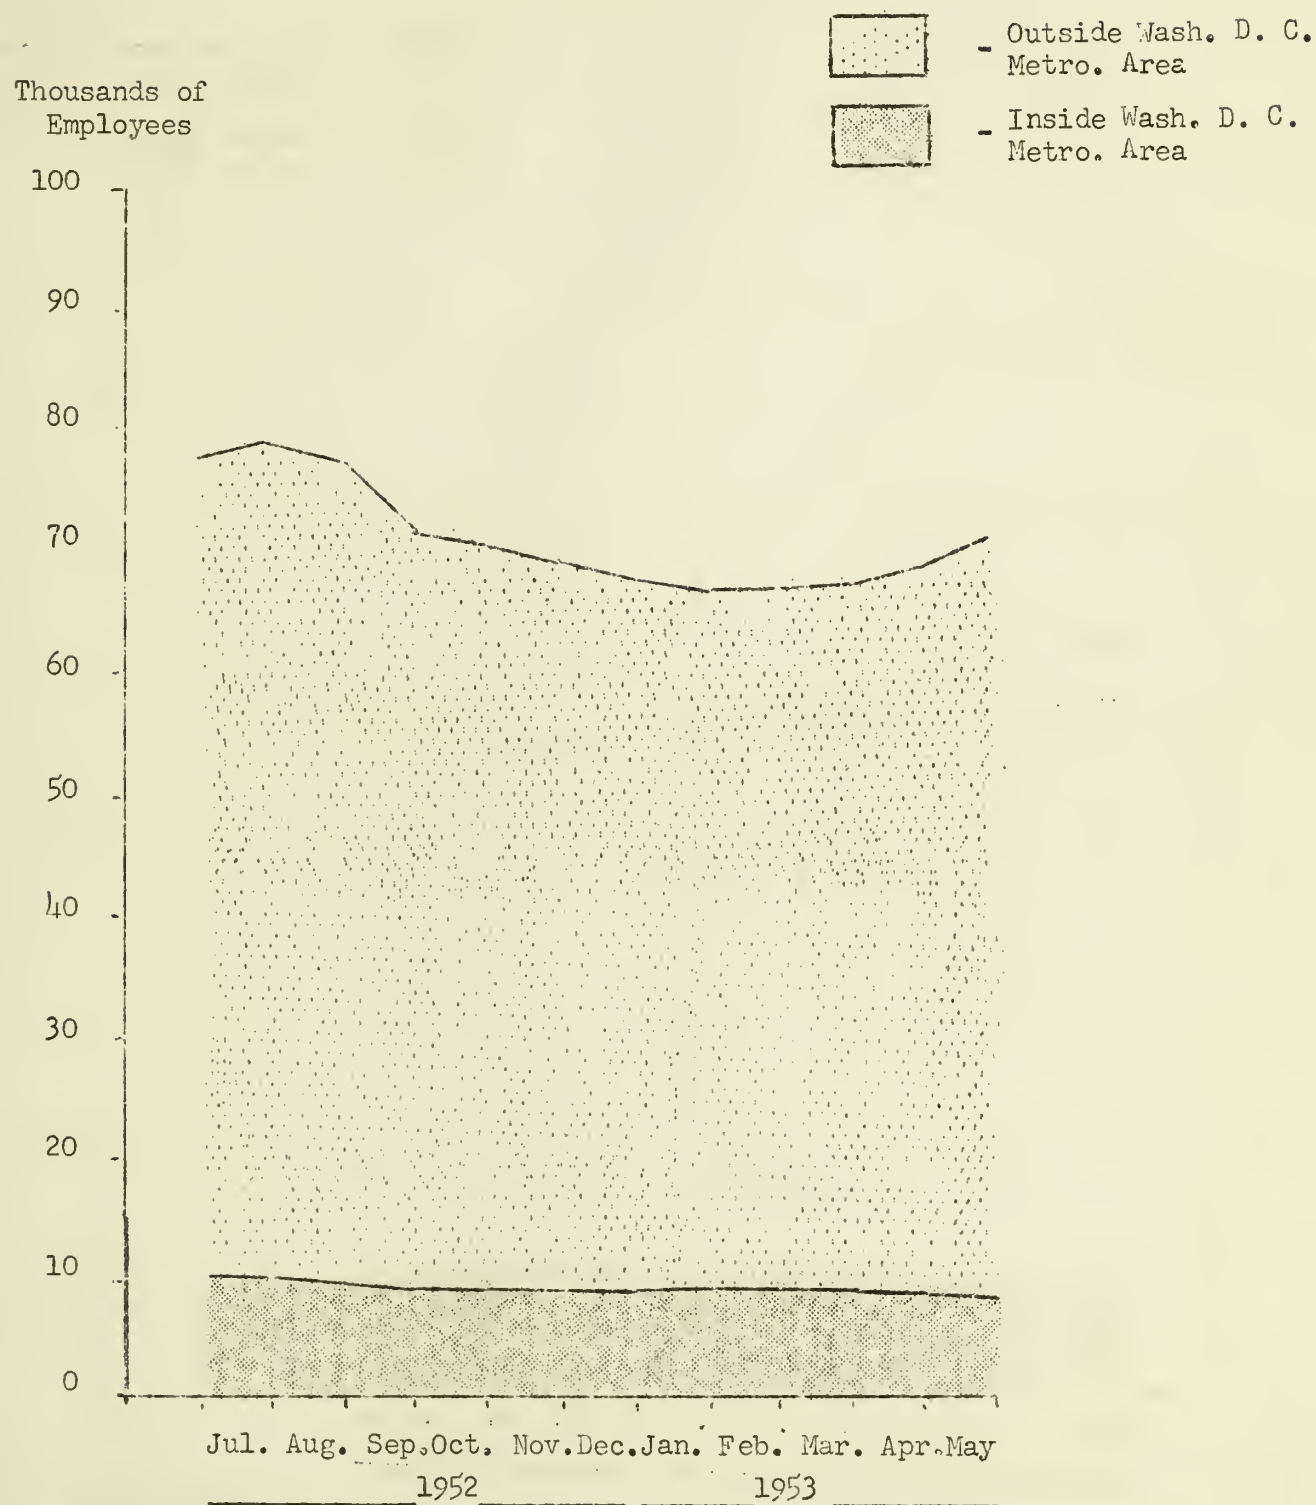

There were less Committeemen performing service during May which accounts for the decrease in part-time and intermittent employment in the Farmers Home Administration.

TURNOVER

The separations from the Department for May 1953 of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 1,496, or 2.7 percent, an increase of 0.5 percent since April 30, 1953. There were 166 separations, or 1.7 percent in the Washington, D. C. Area, an increase of 0.4 percent since April 30, 1953. Outside the Washington, D. C. Area, there were 1,330 separations, or 2.9 percent, an increase of 0.5 percent since April 30, 1953.

The greatest percentage of separations falls in the resignations group, which consists of resignations or separations by abandonment of position.

2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: "PMA County Committeemen and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc.). The number of those persons will be reported annually, as soon as possible after June 30 of each year.

Full-time employment of the Department of Agriculture numbered 64,085 on July 31, 1953, as compared with 63,782 on June 30, 1953. Part-time and intermittent employment totaled 13,921 as compared with 14,315 on June 30, 1953.

Total paid employment on July 31, 1953, was 78,006, a decrease of 91 since June 30, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in employment in the Federal Crop Insurance Corporation was due to increased seasonal activities in the field. The decrease in employment in the Forest Service and Soil Conservation Service was due to curtailment of seasonal activities in the field.

There were more Committeemen performing service during July which accounts for the increase in part-time and intermittent employment in the Farmers Home Administration.

TURNOVER

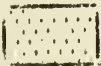

The separations from the Department for July 31, 1953 of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 3,322, or 5.3 percent, an increase of 1.4 percent since June 30, 1953. There were 177 separations, or 1.9 percent in the Washington, D. C. Area, no change since June 30, 1953. Outside the Washington, D. C. Area, there were 3,145 separations, or 5.9 percent, an increase of 1.6 percent since June 30, 1953.

The greatest percentage of separations falls in the terminations group, which consists of separation of temporary employees, termination of excepted appointments, etc.

Full-time employment of the Department of Agriculture numbered 63,219 on August 31, 1953, as compared with 64,085 on July 31, 1953. Part-time and intermittent employment totaled 14,330 as compared with 13,921 on July 31, 1953.

Total paid employment on August 31, 1953, was 77,549, a decrease of 457 since July 31, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in employment in the Federal Crop Insurance Corporation was due to increased seasonal activities in the field. The decrease in employment in the Forest Service and Soil Conservation Service was due to curtailment of seasonal activities in the field.

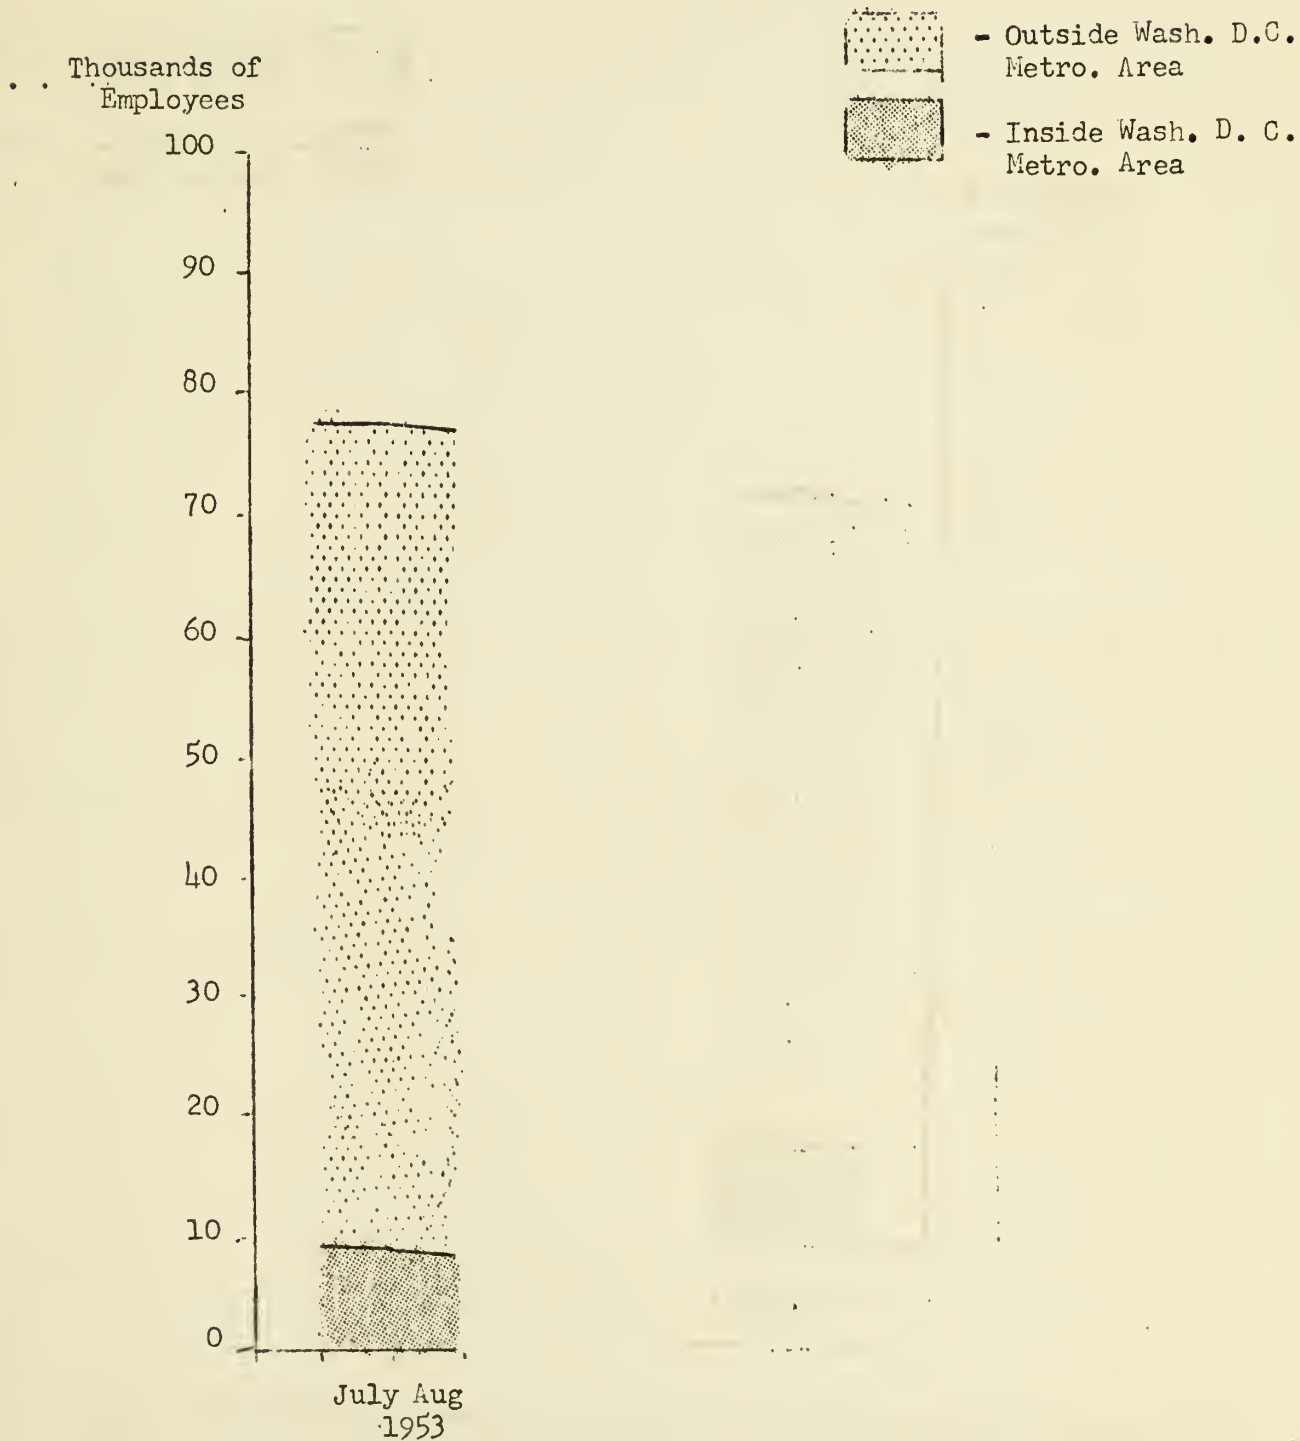

There were more Committeemen performing service during August which accounts for the increase in part-time and intermittent employment in the Farmers Home Administration.

TURNOVER

The separations from the Department for August 31, 1953, of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 3,529, or 5.7 percent, an increase of 0.4 percent since July 31, 1953. There were 186 separations, or 2.0 percent in the Washington, D. C. The greatest percentage of separations falls in the resignations group, which consists of resignations or separations by abandonment of position.

No. of Empl. as of 9-30-53	<u>48,678</u>	<u>49,901</u>
Decrease	3,910	3,898

Full-time employment of the Department of Agriculture numbered 59,236 on September 30, 1953, as compared with 63,219 on August 31, 1953. Part-time and intermittent employment totaled 13,774 as compared with 14,330 on August 31, 1953.

Total paid employment on September 30, 1953, was 73,010, a decrease of 4,539 since August 31, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The decrease in employment in the Forest Service and the Soil Conservation Service was due to curtailment of seasonal activities in the field.

There were less Committeemen performing service during September which accounts for the decrease in part-time and intermittent employment in the Farmers Home Administration.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of August 1953, there were 8,860 casual employees in the Department, representing a decrease of 3,835 over the July 1953 figure. The Forest Service was the only agency employing casual personnel during the period.

FEMALE EMPLOYMENT
FIRST QUARTER, FISCAL YEAR 1954

There was an increase of 239 in the total paid female employees of the Department since June 30, 1953. The total number of paid female employees 16,558 on September 30, 1953, represents 22.7 percent of the total paid employees of the Department.

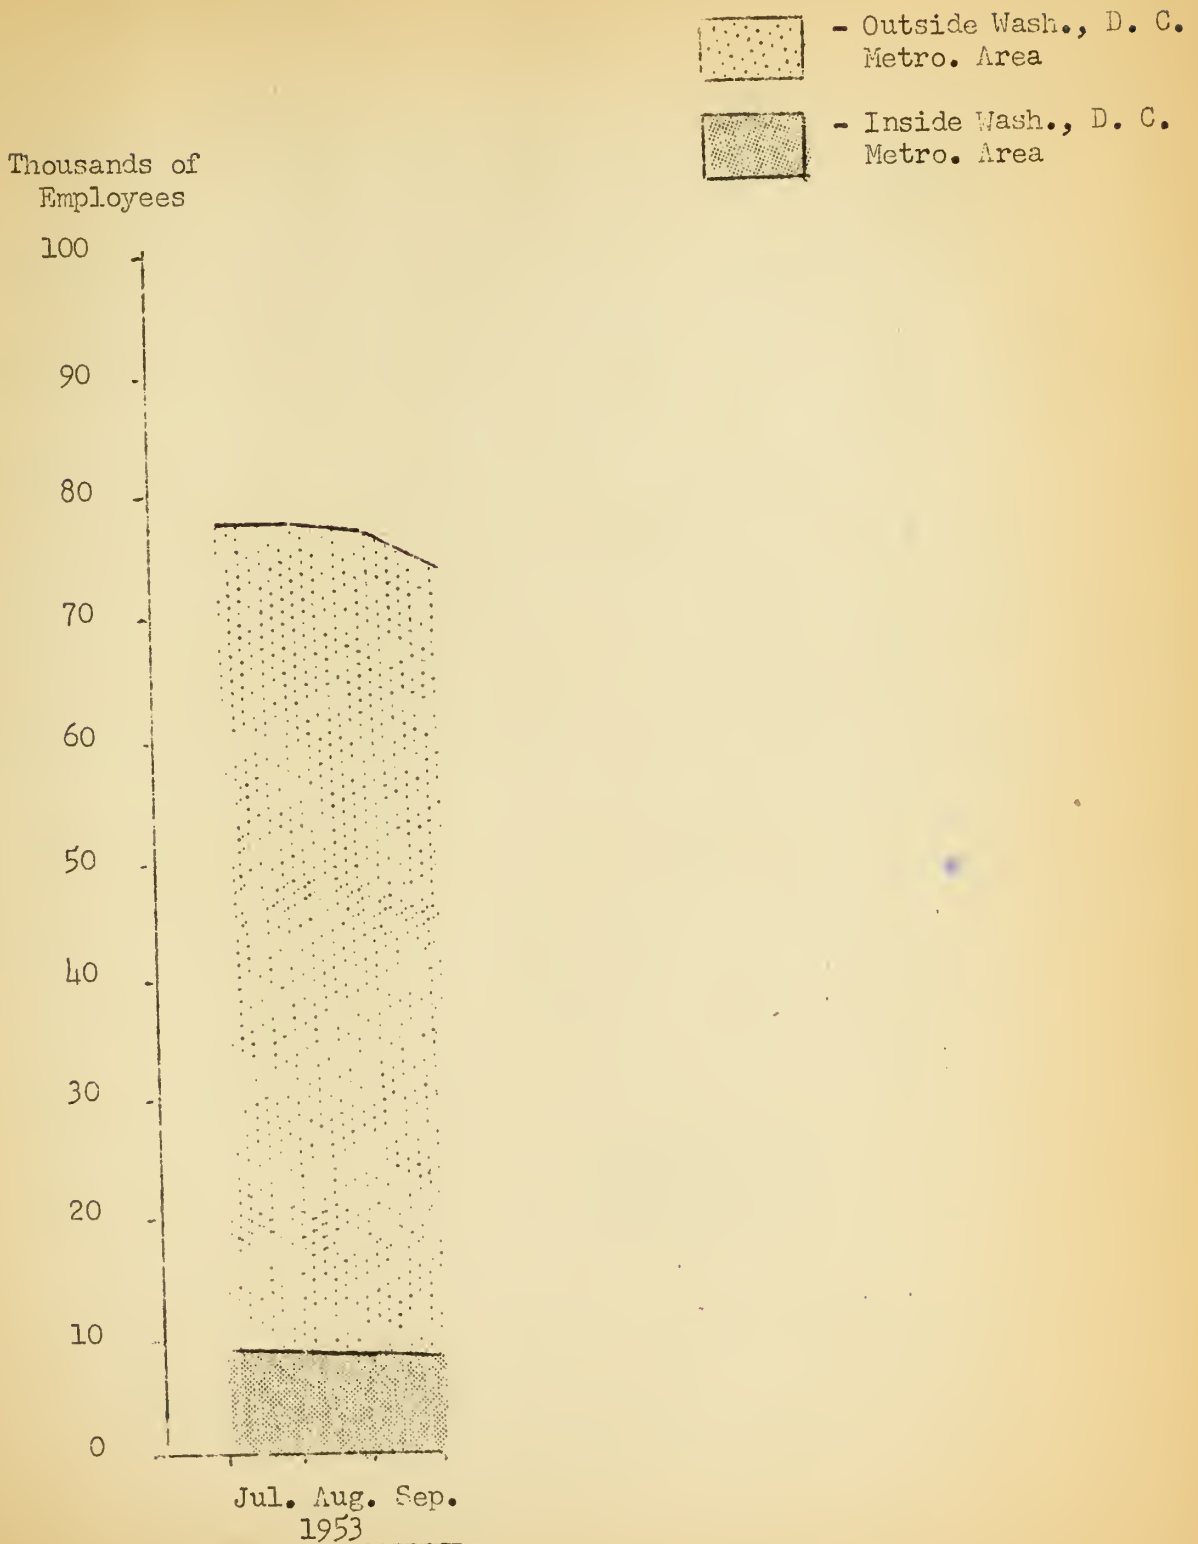

PERSONNEL TURNOVER
FIRST QUARTER, FISCAL YEAR 1954

There were 5,236 excepted appointments, 271 inter-agency transfers; 42 returns from military service; 356 returns to duty; 300 probational appointments; 1,149 temporary limited appointments; and 997 indefinite appointments. This represents a decrease of 7.8 percent from the fourth quarter of the Fiscal Year 1953.

Separations of regular full-time personnel from the Department amounted to 12,924 during the first quarter and consisted of 5,626 resignations; 161 transfers to other agencies; 63 military furloughs; 305 extended leave-without-pay; 88 discharges; 492 reduction in force separations; 5,961 terminations and 228 deaths, retirements, etc. The separation rate for this period was 23.8 percent. Full-time employment of the Department of Agriculture numbered 58,013 on October 31, 1953, as compared with 59,236 on September 30, 1953. Part-time and intermittent employment totaled 13,232 as compared with 13,774 on September 30, 1953.

Total paid employment on October 31, 1953, was 71,245, a decrease of 1,765 since September 30, 1953. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The separations from the Department for October 31, 1953, of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 2,903, or 5.1 percent, a decrease of 5.0 percent since September 30, 1953. There were 118 separations, or 1.3 percent in the Washington D. C.
